

**I N D I A**

Conscious Care.

**REPTILE REPELLENT****Aromatic reptile-repelling barrier****Safe to humans and pets****Composition, 100 g product contain:**

Camphor oil	<5%
Co-formulating agents	Up to 100%

**Characteristics**

This granular product releases a slight scent of camphor when applied, which repels reptiles. The product is non-toxic to reptiles, humans and pets. Applying the product in bands of 25 cm surrounding the area to be protected is sufficient to create an unwelcoming environment to reptiles, which tend to leave the area.

**Usage rates and directions for use**

Apply the product in areas where reptiles need to be kept away. The product can be applied, by way of example, along the perimeter of gardens, parks, camping-sites, houses, industrial buildings. The product can also be used to protect small areas such as timber-depots, garages etc.

Apply 100 grams of product every 10 square metres. For instance, for a 1-metre band with a 25-cm width approx. 3 grams of product are sufficient.

If the presence of reptiles is massive, the usage rate can be increased up to a maximum of 100%, which means 200 grams every 10 square metres.

The product must be applied every 10 days, till the reptiles are no longer seen.

In the event of heavy rainfall and subsequent dispersion of the product, the treatment must be repeated.

**Warning**

Do not use the product for purposes different than those indicated. Keep the product in its original package, in a cool dry place. Keep away from foodstuffs. Do not use in excess. Contains inert material and aromatic substances.
